

UAV PRO

DRONE LIGHT SHOWS

ABOUT US

Who Are the UAV Pros?

Hireuavpro.com are the technology leaders in providing drone light shows across North & South America, and beyond.

Our team of talented drone show producers have been thrilling audiences with custom-designed, best-in-class drone shows since 2019 — and we continue to push the boundaries of what's possible.

Experience matters. We typically perform 150-200 shows per year, but we rely solely on 3 core teams to operate. That means you'll always be working with the best in the business.

We are excited to bring your creative vision to life in the night sky.

TESTIMONIALS

What Our Clients Say

“

"We had no idea our designs would look that amazing in the sky. Thank you!"

— Boeing

“

"You guys rocked it again! Can't wait to design the next awesome drone light show!"

— Tao Group

“

"The couple were beyond amazed! You even had Brad Pitt on the patio filming the show!"

— Kaley Cuoco & Tom Pelphrey Baby Shower

“

"Such an amazing spectacle in the sky!"

— NBC Universal

Know Before You Hire!

Now more than ever, it is crucial for customers to know who and what they are hiring for a drone light show. Please review the attached safety report.

OUR DRONES

- We use a combination of lightweight drones and heavier drones with cutting-edge safety features like a parachute system.
- We will continue to always operate the top drone fleet for safety.

OUR SOFTWARE

- Many drone show software systems are designed for multiple drone types, leading to buggy performance.
- Our software is purpose-built for our drones only — rigorously tested and continuously updated.

OUR SAFETY

- Our core team is small but immensely talented. Rather than scaling fast, we ensure quality on every show using only our core team.
- Years of flawless safety has built a close relationship with the FAA, always staying ahead of requirements.

COMPLIANCE

Licenses & Coverages

Hire UAV Pro are among the first to obtain all necessary FAA licenses and authorizations, and maintain an impeccable safety record.

FAA LICENSES

Up-to-date Part 107 licenses and recurrent training

FAA AUTHORIZATIONS

107.35 Multiple UAS waiver
107.29 (a)(b) Night waiver

INSURANCE

\$5 million aviation and umbrella coverages

FREQUENTLY ASKED

Drone Show FAQ

What do I get in my drone show?

With one of our custom drone shows, you'll receive 15-20 animation scenes. Timing and animation can all be previewed and revised by your team for the perfect end result.

What about the weather?

Our drone shows can withstand winds of 20 mph, with gusts up to 30 mph. We can work around light precipitation. We monitor weather starting 7 days prior to the event. Kill fees or future credits are available in the event of cancellation.

How long is setup & breakdown?

We arrive on site 4-5 hours prior to launch (or when it best suits your schedule). This allows setup, testing, and coordination with your team. After the show, we need 45-60 minutes to load out.

Can we sync to music?

Absolutely! We encourage syncing your show to music to create a multi-sensory experience that's even more impactful and memorable for your audience.

CHOOSE YOUR SHOW

Drone Show Packages

Our light show drones each represent one pixel — the more pixels, the more detailed your artwork. Our designers will provide free previews so you can choose the perfect count for your event.

100

DRONES

Great for intimate events and simpler logo designs

200

DRONES

Detailed artwork with strong visual impact — a popular choice

300

DRONES

High-detail animations and complex multi-scene storytelling

500

DRONES

Premium detail and scale for major festivals and celebrations

750

DRONES

Cinematic-level resolution for large-scale public spectacles

1000+

DRONES

The ultimate experience — massive canvas for iconic, unforgettable shows

Let us help you find the perfect fit for your event and budget.

SPACE REQUIREMENTS

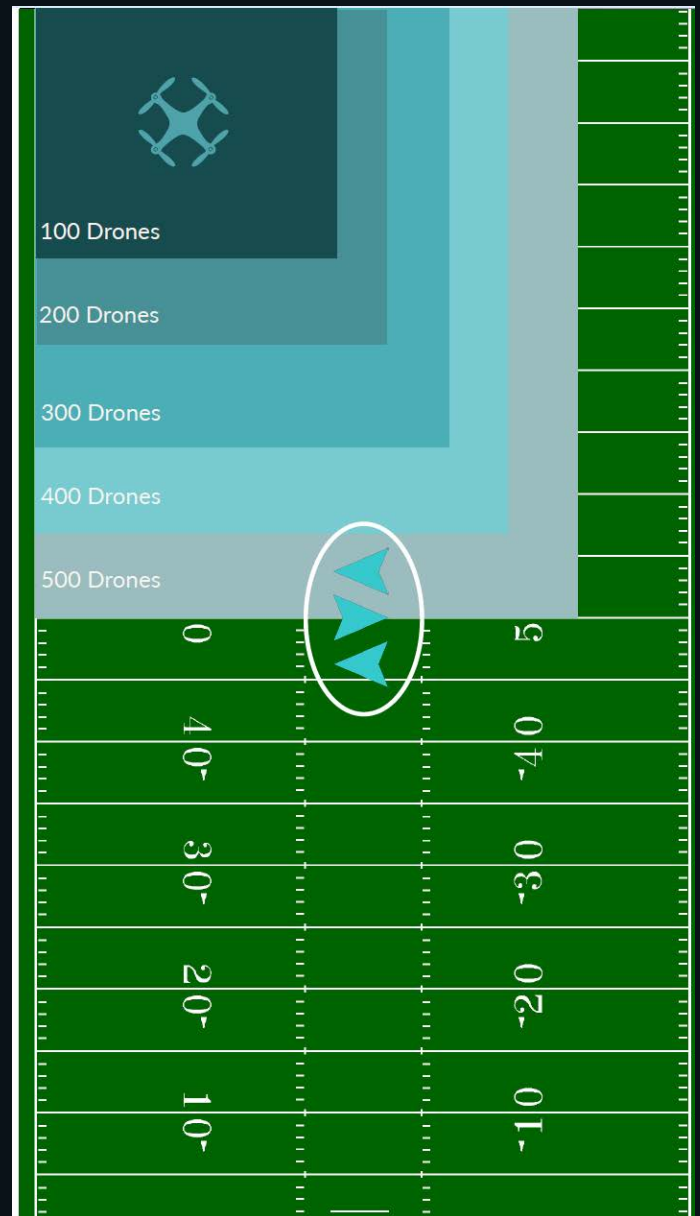

Drone Show Footprint

Our drones launch in tight formation, enabling activation in creative spaces of all sizes. The minimum area for 100 drones is roughly 1,000 square feet.

Once airborne, drone shows spread at approximately a 5:1 ratio from ground to air. Some formations can stretch nearly 1/4 mile wide, visible from over 2 miles away.

All takeoffs can be customized to fit your space. Our team will conduct an on-site visit and test to ensure everything is perfect.

100 Drones	~1,000 sq ft
200 Drones	~2,000 sq ft
300 Drones	~3,000 sq ft
400 Drones	~4,000 sq ft
500 Drones	~5,000 sq ft

WHAT YOU GET

Included & Not Included

INCLUDED

- ✓ Design previews, multiple meeting rounds and unlimited revisions
- ✓ Full-length custom show design up to 12 minutes with music sync
- ✓ Raw video capture from one camera drone
- ✓ All necessary FAA permits and waivers, insurance, crew, and travel

NOT INCLUDED

- ✗ Venue buyout
- ✗ Site security
- ✗ Rush fees (if project is booked within 2 weeks of the event)

** Local permitting fees, security, and venue rental are not always required*

HOW IT WORKS

Our Process

01

KICK-OFF MEETING

Our process begins with a kick-off meeting where you'll meet the entire team. Show design, logistics, and contracting are all discussed and the timeline is established.

02

STORYBOARD DESIGN

The first storyboard is shared with full client control over changes, alterations, and additions. There is no revision limit. Timeframe: 2-4 weeks

03

3D ANIMATION

The storyboard is finalized and sent to 3D animation. An animated preview is completed and shared for your review. Timeframe: 1-2 weeks

04

SOUNDTRACK DESIGN

The soundtrack is crafted to match the full preview. The final run of show with soundtrack is shared for approval. Timeframe: 1 week

05

SHOW DAY

The team arrives 4-5 hours prior for setup. The show is performed and filmed with music cue conducted by the team. Video delivered within 5 business days.
